The soundtrack was removed from the opening shot of Dante's Inferno restaurant. Lloyd's second encounter with Sea Bass in the toilet is extended and alternative shots are used. Working time 110 minutes, Compare Comedy: Any movie involving idiots/fools caught in a terrible situation without being aware of it nice to release them Dumb and Dumber To the theory of everything on the same day. If you're a fan of fir Dumb and Dumber and you're a fan of a sequel, don't be afraid. Although this is not original in any way, you are not already the same age and nostalgia beats something else that can often arise. For me personally, I had to prepare mentally before I stepped into the auditorium. Inappropriate attitude to go to any movie This is going to suck. So don't do this. Just sit down, relax, and even if you don't remember anything you see in 50 minutes, you can still have fun. 20 years later, Lloyd and Harry are still pretty close. Dumber than ever, the two decide to track down Harry's esteemed daughter because they have just learned that she exists, and Harry needs a donated kidney from one of the same blood. So they go on a journey to follow him and bring him a box with unknown content from his adopted parents. Perfectly set up reflecting the first, as well as formula throughout the film, you will feel at home with the general outline. These guys are idiots. Instead of a straight and funny guy, we get these two repe another two. There's not much to say here. It's pointless to talk about it when you say too many positive things are going to happen to the sea. What can I really do here? If you are your first fan, the only reason that will disappoint you is to relay that you decide to hate. Other than that, it's the same movie. I think this should have come out ten years ago. I'm writing this to tell you what I saw as best I could. The only problem with that is that if you're reading this, you're aware of the first movie, and if you're aware of it, you probably don't want a sequel. So all I'm saying is, I think it would have been better for you to have appeared earlier this year, fart jokes yourself and how matured everything really has become here because the Farrelly brothers (this and the original directors) have never changed because it hasn't changed at all when it comes to the film going to find it satisfactory. Rob Riggle tags it along the road trip for a while and two idiots get fed up with no big job playing the guy. Of course it doesn't take much, but it makes his talent feel a little softer to be serious about being stupid or vice versa. But the majority of humor, of course, still lies in Carrey and Daniels' full commitment to stupidity. At times there is the idea that if the joke continues only a second more or less, it will be ruined, but the pair are often successful in nailing the timing. I wish the release date was on the date of release. Guys, I got to get this, he's my dead dad. Positive: Scattered throughout some really funny moments and kind of to make you laugh out loud. While Carrey and Daniels are still great to be morons, Rob Riggle is funny. Negatives: Too little, too late. At the beginning there is a rough start, jokes should be played after every joke that I feel lisy like a laugh piece. Note: C Side Note: There's something at the end, for your information.
